

# Clifton Cameras Product Specification

## Celestron PowerTank Lithium LT

### Specifications

Battery Capacity:	73.3 Wh
Charging Input:	16VDC @ 2000mA
Charge Time (from flat):	4 hours
Telescope Power Port:	12V DC @ 3000mA, voltage regulated, 5mm (0.19")/2.1mm (0.08") tip positive jack
Car Battery Adapter Port:	None
USB Charging Port 1 Output:	5V DC @ 2100mA
Auto Shutoff Threshold Current:	Less than 250mA for 4 hours
Operating Temperature:	-40° - 140°F (-40° - 60°C)
Light Panel:	None
Weather Proof/Dust Proof:	No
Telescope Power Cord:	6.5 ft (2 m) with connector for Celestron telescopes
Strap:	50.8mm (2") wide hook and loop strap for attachment to tripod leg
Product Dimensions:	190.5mm x 101.6mm x 50.8mm (7.5" x 4" x 2")
Product Weight:	1.4 lbs (.63 kg)
Included Items:	Battery pack (Lithium nickel cobalt manganese, Li(NiCoMn)O <sub>2</sub> )   Telescope power cable (2m/6.5 feet long) with 5.5mm barrel connectors   60mm wide strap for tripod leg   AC charger
