

Clifton Cameras Product Specification

Celestron PowerTank Lithium Pro

Specifications

Battery Capacity:	158.72 Wh
Charging Input:	16VDC @ 2000mA
Charge Time (from flat):	6 hours
Telescope Power Port:	12VDC @ 5000mA, Tip positive
Car Battery Adapter Port:	12VDC @ 10A, Tip positive
USB Charging Port 1 Output:	5VDC @ 2100mA
USB Charging Port 2 Output:	5VDC Quick Charge
Auto Shutoff Threshold Current:	(Car Battery Port) - Less than 420mA for a long period of time
Operating Temperature:	-4° - 140°F (-20° - 60°C)
Light Panel:	Red or White with two brightness settings for each color
Weather Proof/Dust Proof:	IP-65 rating
Telescope Power Cord:	6.5 ft (2 m) with connector for Celestron telescopes
Strap:	2" wide hook and loop strap for attachment to tripod leg
Product Dimensions:	222.25mm x 152.4mm x 101.6mm (8.75" x 6" x 4")
Product Weight:	4.5 lbs (2.04 kg)
